DYNAMIC ABUTMENT® SOLUTIONS

## DMTONE VALIDATED BY HYPERDENT

Follow-Me Technology Group HyperDent validates DMTone (Dynamic Abutment® Solutions) to mill angulated screw channels directly to implants in a safe process using DMTone milling strategies.

hyperDENT

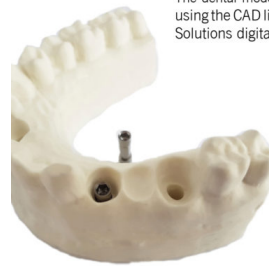

## Digital Analog Advantages

Digital analog of the dental implant to simulate implant position in a milled model.

## Milled Model

The dental model - for later insertion of the analogues - is designed using the CAD libraries available to work with Dynamic Abutment® Solutions digital analogues.

## FIRST SCIENTIFIC BREAKFAST WITH OUR DEALER IN MEXICO

Last Saturday, the 14th of April, took place the First Scientific Breakfast and Presentation from Oral and Restorative Implantology College with our dealer in Mexico: **SIMO Soluciones en Implantología**

## MILLING MODELS FOR THE DIGITAL ANALOG OF DYNAMIC ABUTMENT® SOLUTIONS

The Dental cam software – GO2dental permits milling the dental model and then insert the digital analogues from Dynamic Abutment® Solutions into the model.

The dental model is designed using the CAD libraries available to work with Dynamic Abutment® Solutions digital analogues.

## DASEVENTS

Our next meeting will be held in...

22-24th  
SEOUL

## DAS WITH OUR DEALERS

We continue close to our dealers around the world. We have been in Moscow holding a training course "CAD-CAM Technology with DAS products".

Many thanks to all the assistants and particularly to our dealer in Russia Erkastom XXI for the organization.

## IDEM SINGAPORE

## DENTAL EXPO MOSCOW
